

Super 5

Key benefits

Large capacity vs. footprint

- Ideal dimensions for behind the bar placement where space is limited and storage capacity is important

Strong product visibility

- Strong product illumination
- Large product display area
- Full height glass door
- Standard LED

Strong cooling performance

- Dynamic evaporator for uniform cooling and fast pull down

Customer-friendly operation

- Silent operation

Easy servicing

- Low-maintenance condenser
- Easy access to cooling mechanism

Options

- Door lock
- Protection against current leakage to earth
- Rollers (replacing feet)

Technical data

Dimensions		Shelves continued		Transportation	
External (W/D/H) mm	500 x 608 x 868	Shelf size (W/D) mm	top and middle shelf: 415 x 365	per 20' container (units)	64
Internal (W/D/H) mm	425 x 463 x 766		bottom shelf: 460 x 265	per 40' container (units)	144
Net weight (kg)	45	Capacity		per 13.6m truck (units)	176
Footprint area (m ²)	0.31	500 ml PET	78		
Shelves		330 ml cans	162		
Number of shelves	3	Gross volume (Lt)	136		
Facings per shelf	6
