

Solar 200

The SOLAR 200 ICM is the perfect solution for African countries where power is unstable or no main power sources are available.

Solar energy benefits

- Solar panels produce zero emissions and are therefore ideally environmentally friendly
- Solar energy is sustainable and renewable and is a natural source of power
- No noise generated (compared to the use of power generators)
- After initial equipment investment solar energy is free of cost
- Solar energy is available everywhere there is access to sunlight and therefore ideally suited to remote placements independent of a power grid

Key benefits

- Able to operate even during night time only on solar power*
- Single solar panel – easy to transfer and install
- High Efficient DC Cooling system
- Long Life high intensity LED light
- Grey Safety shield glass with low emissivity coating

Options

- Door lock

Technical data

Dimensions	
External (W/D/H) mm	586 x 605 x 1340
Internal (W/D/H) mm	495 x 483 x 905
Net weight (kg)	95
Footprint area (m ²)	0.39
Shelves	
Number of shelves	3
Facings per shelf	7
Shelf size (W/D) mm	472 x 458

Capacity	
500 ml PET	133
330 ml cans	266
Gross volume (Lt)	224
Transportation	
per 20' container (units)	27**
per 40' container (units)	54**

*subject to sun exposure, usage and ambient temperature ** Including solar panels
